## Property Description

Just a few meters from La Almadraba beach in El Verger, and a few kilometers from Denia. This project challenges convention with the firm intention of turning the impossible into reality: creating a set of residential developments that aspire to form a sustainable, healthy, and respectful community.

Always seeking the utmost respect for nature, the project is conceived with brilliant sustainable strategies: rainwater collection, channeling, and reuse systems that will give life to a lush sustainable ecosystem; refreshing gardens with native species that require minimal maintenance; large surfaces of photovoltaic panels for self-consumption energy generation; even multiple charging stations for electric mobile vehicles.
